ONLY \$55.95 PLUS SHIPPING

Seal A Vent is an energy saving insulation cover that seals and insulates a whole house fan grill. The cover fits over your whole house fan grill using an advanced magnetic seal. The insulated cover is easily removed from the fan grill during seasonal use and snaps back in place magnetically to cover the grill during the winter.

Seal A Vent is great for homeowners that want to save on their heating and cooling utility bills by sealing their whole house fan during non-use periods. No more crawling in the attic to remove the cover.

The magnetic sealing system provides a method to attach the cover and provide a clean smooth seal to help prevent drafts. When the cover is removed it leaves a smooth white strip of magnetic seal which blends in with the grill facing and unlike hook and loop fasteners, the magnetic seal can be wiped clean with a damp cloth to remove dust that collects during operation. When the cover is in place, it creates an attractive look that has a white textured surface.

SIZES: 36" X 48" CUT TO FIT KIT FITS MOST FAN SHUTTERS

- SEALS AND INSULATES WHOLE HOUSE FAN SHUTTER VENT GRILL
- MOUNTS DIRECT TO SHUTTER VENT GRILL
- WHITE MAGNETIC SEAL DOESN'T CATCH DIRT LIKE HOOK AND LOOP FASTENERS
